

Petition for Georgia Resident Classification

Who should file this petition?

Please submit this petition **only** if you are classified as a nonresident for tuition purposes and you think that further information could alter that decision. You must demonstrate that you, your parent, your spouse, or your court-appointed guardian (if you are a minor) is a **resident of Georgia for tuition purposes**. You may establish this claim by providing documentation to support your claim. Please note that establishing residency for tuition purposes as defined by the Board of Regents requires more than establishing eligibility to vote, securing a driver's license, and/or paying taxes. *It is presumed that no student shall have gained or acquired in-state classification while attending any postsecondary educational institution in this state without clear evidence of having established domicile in Georgia for purposes other than attending a postsecondary educational institution in this state.* For more information about resident classification of students for tuition purposes, visit our website.

Petitions will not be considered for prior terms.

The deadline for petition consideration is sixty days into the current term. All documentation must be received before the deadline for consideration for the current term.
